
Beta HCG Video Blog

Posted by Researcher - 2008/09/08 22:16

"It flies in the face of reality." :woohoo:

I love that line in Dr. Gates's new video. It makes me feel kind of dumb, and I've never tried injecting hormones from the urine of pregnant women into my system.

Sure, I would like to have a lower appetite AND increased muscle mass, but I went through three pregnancies (with my wife, of course), and I don't remember that ever happening.

I don't know if anyone noticed, but baseball player Manny Ramirez was banned 50 games last week for using banned substances.

In his case, the substance he was caught with was not HGH or another steroid. IT was HcG, which he was probably using to get back testicular function after a round of steroids.

Nothing was mentioned about his need to lose weight.
